## A Complete Platform for Integrating NetSuite with your Inbox, CRM and Productivity Tools in Real-Time

The CloudExtend suite of apps integrates NetSuite with Office 365, G Suite, and Salesforce, empowering your users to work with NetSuite from their favorite productivity tools

# Create, Edit, View Everything you Need from NetSuite, in your Inbox

## Reduce time and effort spent keeping both systems in sync

Celigo CloudExtend enables cloud-to-cloud synchronization of your email, calendar and files with NetSuite records, allowing you to increase efficiency by reducing manual effort.

### Organizational Transparency

Important emails and file attachments can now be shared outside of the mailbox to provide co-workers with a 360 degree view of activity in NetSuite.

### Enhance Visibility

Sync important calendar events to NetSuite and save time navigating between applications.

# Secure and Seamless Integration Manage NetSuite and Salesforce Data in Excel

## Create new records, update records, and download data with ease

Celigo CloudExtend allows users to access and edit NetSuite or Salesforce data directly in Excel. Get work done in a fraction of the time it would take in the UI.

### Reduce Manual Effort

No more exporting search results to CSV files. CloudExtend allows action to be taken right in Excel via data filter, NetSuite saved searches, Salesforce reports and SOQL.

### Eliminate Errors

Bypass the NetSuite and Salesforce UI and upload multiple records directly from Excel for faster data entry/updates. End the vicious cycle of waiting for CSV uploads to run and hoping for the best.

### Instant Visibility

View or edit NetSuite records with one click or attach emails to suggested records and search to attach to other records.

### Storage Savings

Get all the benefits of Google Drive or OneDrive/SharePoint directly in NetSuite by associating files and folders with NetSuite records, minimizing storage space.

### Work Faster

Eliminate the hassle of switching between systems and leverage the power of Excel for your NetSuite and Salesforce reporting and data management.

### Make Users Happy

Save time while increasing user adoption and efficiency by using pre-built Salesforce reports and NetSuite saved searches in Excel. On average users work 69% faster when using CloudExtend.

Compatible with G Suite and Office.

Available on Mac and PC.

Join over 1,000 NetSuite customers who use CloudExtend to automate business processes and save significant time and resources everyday

CloudExtend Excel for NetSuite is a great product. I encourage everyone to have it available for at least some of their users.

– Evan Goldberg, Founder & CTO, NetSuite

What would normally take up to 5 hours can now be done in as little as 10 minutes. CloudExtend saved \$70K to \$100K in alternative solutions.

– Damen Seminero, CTO, Jonathan Adler

**JONATHAN ADLER**

CloudExtend Excel for Salesforce is a must-have tool for any Salesforce user. Processes that used to take hours now only takes minutes to complete—saving me around 10 hours a week.

– Brandon Beck, Salesforce Admin, Equian

Since implementing CloudExtend Outlook our internal IT case load has dropped by 50% and NetSuite user adoption has gone up. It's incredibly intuitive and user friendly.

– Arash Davani, Senior ERP/CRM Administrator, MIND Research Institute

## About CloudExtend

CloudExtend is a brand of Celigo, a leader in the iPaaS and SmartConnector space. The CloudExtend product suite integrates NetSuite with G Suite, Outlook, Office 365 and Salesforce applications to empower end users to work exponentially faster. A strong background in ERP and CRM enables the CloudExtend team to deliver products that install in seconds and provide immediate benefits.
